# GLASS AND WOOD BOOKSHELF SPEAKER STANDS

 SALES 866-839-9187

### PRODUCT OVERVIEW

The Helios Glass and Wood Bookshelf Speaker Stand is a modern and functional piece of furniture for any home audio system. The stylish black glass top is supported by a solid black aluminum and MDF wood pillar that hides the wiring and supports up to 22 pounds of weight. This speaker stand features anti-vibration sound decoupling pads for use on hard floors. The decoupling feet reduce vibration and allow the sound to travel as intended by the speakers. For carpet, floor spikes add stability and reduce vibration. The bottom base is made from tempered glass.
