

# INTER-LINC HD

LONG DISTANCE + ULTRA THIN + HIGH PERFORMANCE

## EHD-HD12M

Ethereal's EHD cable program is an entirely new and very different approach to High Speed Digital Interconnects, with the EHD cables you will get assured 10.2G performance at any length with out the need for any additional electronics.

The E/HD cable design process starts with the testing of several different cable designs to find the best combination of raw performance. Once a cable platform has been selected we then install our active electronics and start the labor and time intensive task of programming individual length thresholds. These tests provide us with data we need for all of the "High Speed", "EDID", and Power parameters for each cable. Upon completion we have production samples made with our length specific programming installed. These then go to "DPL" for final testing. Only after "DPL" has signed off on these cables do they become available to our dealers. One of the truly nice things about this product line is that "EVERY SINGLE CABLE" is fully QC'ed during the programming process, which gives custom integrators comfort and assurance in their installations.

12 METER

AVAILABLE IN 1M - 25M LENGTHS

ONLY AVAILABLE TO CUSTOM INTEGRATORS

BEYOND DEFINITION

# EHD-HD12M

## 12 METER HD CABLE

### LONG DISTANCE

EHD's cables carry high-speed digital signals at over 80 feet without ANY quality loss. Reliability is not an issue with over 1,000 cables already in use with ZERO defects - a 100% success rate!

### ULTRA THIN

With cable diameters starting at 3mm, EHD is the thinnest and most flexible high-speed digital cable available that exceeds HDMI test ratings.

### TECHNOLOGY

These revolutionary cables include specially built data accelerators, that are powered from within the cable, keeping EDID and HDCP operating at remarkable performance levels.

### COLOR CODE

The snap-in color coded nubs help distinguish between cables when running multiple lines. Each cable comes with 2 each of 6 colors.

#### PERFORMANCE SPECS

Cable Diameter	<b>8mm</b>
Cable Weight	<b>2 lb. 1.7 oz</b>
Bandwidth	<b>10.2 G</b>
Audio Return Channel	<b>Yes</b>
Ethernet Support	<b>No</b>
X.V. Color	<b>Yes</b>
Dolby True HD	<b>Yes</b>
DTS-HD Master Audio	<b>Yes</b>
Blu-Ray 3D	<b>Yes</b>
CEC Control	<b>Yes</b>
EDID Data Accelerator	<b>Yes</b>
LED Voltage Indicator	<b>Yes</b>

AVAILABLE IN **1M - 25M** LENGTHS
