BUILT-IN
POE

2.8MM - 12MM
MANUAL ZOOM

PRODUCT OVERVIEW

Installation is even faster with our next generation, Spyclops IP bullet cameras! A single hex screw allows you to adjust the camera position quickly. Just mount the camera, loosen one hex screw to move into the desired position, tighten it and you're done! The 2.8mm to 12mm manual varifocal lens offers exceptional flexibility to adjust the camera from ultra-wide angle view to approximately 3.5X zoom using the supplied allen wrench.

These IP cameras have built in POE and are compatible with most surveillance NVRs on the market. An improved, cleaner design has a lower profile chassis with a smoked infrared LED cover. The 4 MP image sensor provides crystal clear, high definition, (2560x1440), 1080p picture quality.

- ONVIF compliant IP camera
- 2.8 - 12mm manual varifocal lens
- 1 / 3" OmniVision 4MP CMOS sensor
- HISILICON DSP, wide dynamic range
- Main stream: 4MP@20fps/3MP/1080P @ 30fps
- Built in POE
- Adjustable sunshade
- IP66 water resistant
- IR LED's for up to 40 meters at night
